

**REMARKS/ARGUMENTS**

This is in response to the advisory action mailed July 13, 2007 indicating that the April 30, 2007 reply was not fully responsive to the prior Office Action.

In response, applicant has amended independent claims 59, 61, 62, 63, 64 and 65 so as to insert "a patient's" in the preamble to indicate that it is the patient's neurological disorders which are being identified and treated. Moreover, applicant has canceled the recitation "or physical function" from each of these independent claims.

Applicant's attorney discussed these changes with the Examiner via a telephone conference, and it was agreed that these changes would overcome the §112 rejections, and place the application in condition for allowance.

Respectfully submitted,
